## THE CULTURE OF EXCELLENCE

Excellence begins when we know that being good or even competent won't carry the day, when doing more or trying harder won't bridge the gap, when excellence is simply the only alternative.

Excellence is not a matter of ability, knowledge or practice. It cannot be taught, imposed, or wished into existence. Excellence is a matter of the stand we are and the stand we take - a stand that allows for performance that surpasses what was previously possible, performance that defies old limits and maps new territory.

This 1-day workshop is for all those who want to nurture values that excel, attitudes in dealing with people, attitudes in relating to one's job and the ability to craft out more than a product, but a satisfying journey and experience.

### Course outline:

#### ◆ Introduction

Being the Best is not an option

Exploring one's strengths and potential

Seizing the opportunities and sensing the seasons

Transforming one's life to adapt to one's BEST

#### ◆ Nurture the 4 successful attitudes to be a Person of Excellence

- Integrity, the Discipline that Defines the Difference
- Innovation, the Desire that Drives the Dream
- Industry, the Diligence that Dictates the Demands
- Inspiration, the Dedication that Delivers the Dynamism

**Malaysia Prime Minister, Datuk Seri Najib said it well, "Excellence does not come in dreams or exist in a vacuum, but it is the result of hard work with a clear focus on principles, by having the right attitude and holding on to good moral values"**
